

## CLEO Community Language Efficiency Outreach

*Helping you save energy, money, and the environment*

Southern California Edison, Southern California Gas Company and Global Energy Services are working together to help our community save energy, save money, and help the environment. Through CLEO - Community Language Efficiency Outreach - utility customers learn about available energy efficiency programs and services.

### ■ SEMINARS & COMMUNITY BOOTHS

The CLEO program provides energy saving tips and information on utility rebates and income qualified programs. The seminars are conducted in English, Chinese, Vietnamese, Korean, Spanish, and Indian languages.

### ■ SCHOOL PROGRAM

The CLEO program educates K-12 students to become more energy efficient through an "Energy Artist" competition. Also, the CLEO program offers Workforce Education and Training (WE&T) to educate and prepare people for careers in energy efficiency and sustainable industries.

### ■ GREEN PARTNERSHIPS

The CLEO program is establishing partnerships with cities and churches to empower customers with energy efficiency knowledge.

### ■ HOME ENERGY SURVEYS

The CLEO program offers energy efficiency audits for residential customers and small businesses. In one short visit with a specially trained energy services representative, customers will receive recommendations to help you save energy and money.
